SUMMARY

Backend .NET (Intern/Junior) and Computer Science student trained in C# and ASP.NET (MVC/Core) with SQL databases. Built an MVC Event Booking System featuring authentication (Register/Login), full CRUD for events, and a booking workflow (MyBookings). Seeking a backend internship to apply .NET skills in real-world projects.

TECHNICAL SKILLS

- Backend: C#, ASP.NET Core, ASP.NET MVC, REST APIs, OOP
- Database: SQL, Database Design, Normalization
- Tools: Git, Visual Studio, Postman
- Soft Skills: Problem Solving, Teamwork, Communication, Time Management

PROJECTS

Simple Event Booking System — ASP.NET MVC | Entity Framework | SQL Server

- Implemented user authentication (Register/Login) with validation and error messages
- Built full CRUD for Events (Index, Details, Create, Edit, Delete)
- Created booking feature to save records in Bookings table (UserId, EventId)
- Developed MyBookings page to list booked events and navigate back to event details
- Used a ViewModel in Details page with UserHasBooked flag based on Booking table

LEADERSHIP & ACTIVITIES

FEE Control Exhibition (Faculty of Electronic Engineering, Menoufia University) — PR Committee

- PR Member | 2023 – 2024
- Head of PR | 2024 – 2025

TRAINING & CERTIFICATES

- Shift Up Program – Back-End Development — RiSKRiCE (Completed Sep 10, 2025)
- ITI Summer Training – .NET Development — ITI Menofia (2025): C#, SQL, MVC Architecture, Entity Framework
- IBM SkillsBuild – Web Development Track — Completion: 2024 (HTML, CSS, JavaScript, GitHub + employability skills)

EDUCATION

B.Sc. Electronic Engineering (Computer Science Department) — Menofia University, Egypt (Currently enrolled)

ADDITIONAL KNOWLEDGE

Data Structures & Algorithms, HTML/CSS, JavaScript, Bootstrap

LANGUAGES

Arabic (Native), English
